Ergonomics Buyers Guides

Type 'ergonomics' into a web search engine and 6 million or more results come up. Busy managers like you have better things to do than wade through 5 pages of results, let alone 6 million. We've compiled a list of ergonomic buyer's guides that will make it easier for you to find the right chairs, keyboards, lumbar supports, glare screens, headsets, mice, matting and tools to go with your Production Basics workstations.

Directory of ergonomic products and services, catering to a wide variety of industries: <http://www.ergoweb.com/ergobuyer>

Listing of products from leading human performance consulting firm, Humantech: <http://vendorweb.humantech.com/browse.asp>

Includes comprehensive categories for products that increase safety in your facility: <http://www.occupationalhazards.com/Directory/default.aspx>

Directory of products for the health care industry:

Trivia

Production Basics trivia- win Production Basics gear!

What is the approximate loading time for the configurator?

A winner will be drawn from correct entries. Submit entries thebasicfacts@pbasics.com for your chance to win a Production Basics prize.

Focus On: Accessories

<http://www.pbasics.com/workbenchaccessories/accessories.cfm>

Production Basics presents most of our products as having a single purpose, but there are several accessories that have dual personalities. Below we've highlighted some accessories that will give you flexibility to use it for multiple purposes.

CRT Monitor Tray -

http://www.pbasics.com/workbenchaccessories/computerarticulatingaccessories__798_doublearmmonitorkit.cfm

Did you know this tray can also be used as a shelf? The 14x14 platform is perfect for scopes, diagnostic instruments, dispensers, tool trays and additional supplies. Swing it to place it out of the way, just like our Parts Bin Panel.

Modesty Panel-

http://www.pbasics.com/workbenchaccessories/panelaccessories__827_60x16modestypanels.cfm

The Modesty Panel is a great privacy enclosure for the C-Leg, but it can also be used above the worksurface on an Easy-Lift Series workstation or RTW. Add your favorite magnet to post plans, instructions or lunch menu.

Cable Trough-

http://www.pbasics.com/workbenchaccessories/storageaccessories__790_cabletrough60in.cfm

Perfect for cord management, but hang a couple bins and you have a smaller version of the Tool Shelf and Bin Rail. One of our customers, who often presented graphic projects mounted on boards to their clients, drilled the Cable Trough into the wall and displayed the boards at eye level in their conference room.

Writing Shelf/3" Drawer-

[http://www.pbasics.com/workbenchaccessories/storageaccessories_1054_writingshel
f3indrawer.cfm](http://www.pbasics.com/workbenchaccessories/storageaccessories_1054_writingshel
f3indrawer.cfm)

This drawer can stow tools and office supplies in a 3" deep tray. Flip it over and it's a retractable writing shelf, perfect for paperwork or extra workspace.
